

A LEADER IN SUSTAINABLE URBAN DEVELOPMENT THAT CATALYSES ECONOMIC TRANSFORMATION AND ENRICHES LIVES

COWORKING SPACE

Riding on the shared economy and addressing emerging new ways of working, Ascendas-Singbridge diversified its offering of workplace solutions to include a 'space-as-a-service' model. Bridge+, The Workshop and CoSpace Park redefine the future of workplaces, targeting different segments of the market with interesting and creative space offerings.

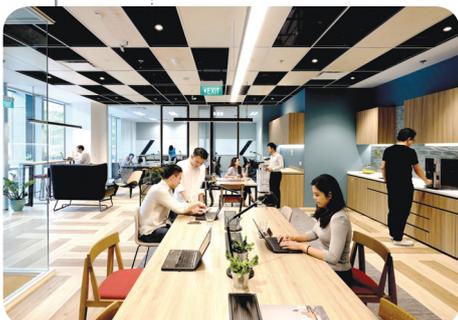

BRIDGE+

Launched in 2017, Bridge+, formerly known as thebridge, is an extension of Ascendas-Singbridge's portfolio of sustainable urban development and business space solution – combining flexible workspaces with collaborative areas for interaction. More than just a physical space, Bridge+ features contemporary facilities, with access to amenities, events, programmes and an Asia-wide network of science and business parks operated by Ascendas-Singbridge.

Located at the entrance of Singapore Science Park 1, across the road from Kent Ridge MRT Station, Bridge+ is a thriving ecosystem of entrepreneurs, venture capitalists, social enterprises, progressive businesses and larger corporates working on developing new technologies and services. Close proximity to universities, research institutions and startup communities provides and an unparalleled conduit to deep talent pools and knowledge-sharing communities.

In 2019, Bridge+ has expanded to Shanghai, Suzhou and Hangzhou in China, Bangalore in India and will continue to grow in the region.

Launched in 2018, The Workshop provides a collaborative work environment for SMEs, start-ups and industrialists to work in a redefined industrial setting. Members are provided with fully fitted space, and charged a flat rate with necessities to start work immediately. These include wifi, printing credits, beverages, and meeting room usage. Access is round the clock. In order to be truly flexible and to allow users to expand their businesses within the space, it houses events venue, open seating, private work spaces, units designed specifically for makers, and storage pods, all within this 21,000 sqf compound.

Located at Ang Mo Kio, The Workshop has attracted a pool of IT, Digital, Media and E-commerce users alongside traditional industrialists who are eager to attract younger talent and set themselves apart from their competition.

Launched in 2017, CoSpace Park is a collaboration between Ascendas-Singbridge and TNB Ventures, a venture capital firm and incubator. It offers a community-focused environment for businesses predominantly in R&D and disruptive technology. It also creates an ecosystem where tech start-ups can connect with TNV Ventures.

Located in Singapore Science Park, CoSpace Park offers flexi desks, hot desks, private offices, meeting rooms, conference rooms and event spaces.
