management

Capital management

Currency hedging strategy

Balance sheet

- Trustee-Manager does not hedge equity.
- At least 50% of debt must be denominated in INR.

Income

- Income is repatriated semi-annually from India to Singapore.
- Trustee-Manager locks in the income to be repatriated by buying forward contracts on a monthly basis.

Funding strategy

- The Trustee-Manager's approach to equity raising is predicated on maintaining a strong balance sheet by keeping the Trust's gearing ratio at an appropriate level.
- Trustee-Manager does not borrow INR loans onshore in India as it costs less to hedge SGD borrowings to INR-denominated borrowings using cross-currency swaps and derivatives.

Income distribution policy

- To distribute at least 90% of its income available for distribution.
- a-iTrust retains 10% of its income available for distribution to provide greater flexibility in growing the Trust.
