1Q 2022 CSR Updates

Singapore Highlights

Majestic Smart Seniors Applied Learning Centre Official Opening

- CapitaLand Hope Foundation (CHF) supported the centre with
 - a S\$400K donation and
 - the involvement of staff volunteers to contribute their design expertise, to transform the space into a liveable, usable and senior-friendly place, and improve the seniors' quality of life.
- The centre, officially launched by President Halimah Yacob, seeks to help seniors learn about digital technology and integrate it into their daily lives.

#LoveOurSeniors

- More than 55 staff volunteers delivered over 580 specially-curated meals and over 3,000 loaves of bread to close to 1,200 seniors from Jan to Mar 2022.
- Over 80 seniors from Montfort Care had Chinese New Year reunion lunch and received red packets, both sponsored by CHF, on 31 Jan 2022. Nine staff volunteers also participated in bringing festive joys to the seniors.

Global Highlights

China

- Over 60 staff volunteers were involved in the four volunteer activities at Chongqing, Guangzhou, Suzhou and Wuhan, which includes the Resilient Community Project to reach out to the seniors and child in need. Tenants and community partners were also rallied to support these initiatives.
- 17 staff volunteers from Ascott in Wuhan participated in a tree conservation activity at Wuhan Houguanhu Wetland Park.

India

- CHF India launched a literacy programme, in partnership with international non-profit organisation, Room to Read on 8 Mar 2022. Libraries were set up in 13 schools across Bangalore, including the newly completed CapitaLand Hope School in Mahadevapura.

Business Outlook

- The first quarter of 2022 was marked by a number of significant economic and geopolitical events.
- Most of our markets have begun to normalise international travel lanes, and operating conditions have improved as concerns over the COVID-19 virus recede. China is an exception, where a resurgence of COVID-19 has led to the lockdown of several key cities. We expect this to delay China's economic recovery this year.
- The end of the first quarter of 2022 also witnessed an elevation of geopolitical instability, arising from the Russian-Ukraine conflict. The resulting economic uncertainty and disruption to global supply chains, in particular to energy supply, has significantly increased inflation pressures, and tapered the IMF's 2022 global growth projection¹.
- Amidst these global uncertainties, we expect CLI to remain resilient. The Group manages a diversified and well-balanced business that is spread across geographies and asset classes, enabling our 3 primary growth drivers of Fund Management, Lodging Management, and Capital Management to continue to contribute towards the Group's growth and financial performance.
- Our healthy cash balance, available undrawn facilities and comfortable net debt-to-equity put us in a strong position to navigate through this period of heightened uncertainty, and to capitalise on attractive investment opportunities that may arise.
- As a responsible steward of the capital we manage, we continue to place sustainability at the core of our business, and are undertaking a holistic review of our 2030 Sustainability Master Plan this year, with a view to align our plan with the industry's evolving ESG targets.
